PSTAR—ICRASH CALL FOR PAPERS CONFERENCE

July, 25-27, 2018

CHINA

Organized by

China Automotive Technology and Research Center
National Technical Committee of Auto Standardization

Taylor & Francis Group
an informa business

International Journal of Crashworthiness

ICRASH International Crashworthiness Conference has truly become a well recognized platform for engineers, bioengineers, designers and researchers in the field of accident investigation, crash mechanics, structural crashworthiness and impact biomechanics. ICRASH provides a vital forum for experts to find designs that reduce fatalities and injuries attributed from world's crashes. Your life long, distinguished contributions to the knowledge databank of how to mitigate crashes and protect human life on our roads, railways, airways and shiplanes has made a significant downward trend to crash topology. For students and newcomers to crashworthiness come and learn, and present your own ideas for future state-of-the-art solutions. ICRASH International Crashworthiness Conference was created for you and will offer you that platform as it has done for over eighteen years.

As a result, we want to listen and learn from you how you are incorporating innovative crashworthiness technologies to your company products; how you are developing the science, practical solutions and technologies to be used by OEMs; how you are bringing us closer to realistically understanding the behaviour of biological materials; how you are developing new crashworthy structural materials and how you are managing safety in transport.

On behalf of the Organizing Committee in China, we welcome you to ICRASH 2018 International Crashworthiness Conference

★★★ PSTAR (Passive Safety Technology and Regulation) is the most prestigious annual international conference on standard and technology of passive safety. Organized by CATARC and NTCAS for 6 years, PSTAR has been promoting the development of standards, NCAP safety ratings and technologies on passive safety, as well as providing a vital platform for the cooperation of OEMs, academia and the public. Road vehicle safety is facing new technical challenges as transport technologies advance to new levels using smart systems and becoming autonomous. These new design parameters need to be addressed by showing that passive safety can still play a major role in protecting occupants and Vulnerable Road Users. That is why PSTAR and ICRASH are jointly organizing this international conference in China to promote and present innovative ideas and products that contribute to the reduction in road crashes while improving road safety.

Conference

Structural Crashworthiness

Road and Rail Vehicles / Air and spacecraft

Ships and Submarines

Impact Biomechanics

Vehicle Occupants / Vulnerable Road Users

(Cyclists and Pedestrians)

Modelling

Simulation and Validation

Intelligent Protection

Integrated Safety

Safety Systems and Materials

Vehicle Occupant Restraints/

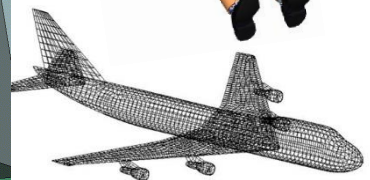

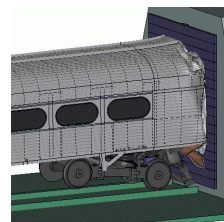

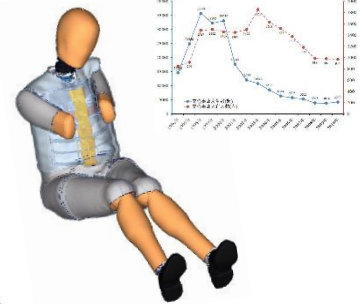

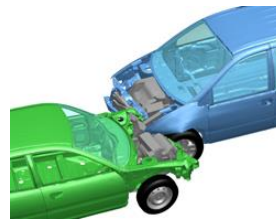

Energy Absorbers / Metallic and Composite

Materials

Accident Survey and Reconstruction

Real World Database / Realistic Regulations

Type Approval Tests / Customer Rating Systems

ICRASH 2018

Organizers

China Automotive Technology and Research Center (CATARC)
National Technical Committee of Auto Standardization
ICRASH & Crash Engineering Solutions, UK
Taylor & Francis Group, UK

Chairpersons

E. Clive Chirwa (Crash Engineering Solutions-UK)

Abstract Submission Details

The selection of paper will be made on their importance and interest to a wide range of delegates. Please indicate which of the conference scope your paper fits best.

- Abstract and full manuscript should be in English
- Abstracts describing the scope of the paper
- Methodology and main conclusions
- Time New Roman 12-point font
- Microsoft word single spacing
- Brief biography and author contact details including position, organization, address, telephone, mobile and email
- Maximum of 1000 words

Paper Submission Guidelines

Upon the acceptance of abstract, candidates will be notified to submit the registration form along with the paper/case study as per the guidelines. Submitted papers/case studies must NOT have been previously presented, scheduled for presentation, published and accepted for any publication. Please refer to the conference website for the guidelines of full papers/case studies submission. The papers/case studies will be accepted subjected to the blind review and changes should be incorporated as per the reviewer's feedback.

Abstracts and Full papers should be sent via email to:

ICRASH2018@catarc.ac.cn;

Email Subject : 2018- Abstract/Fullpaper-Scope- Name- Institute

All papers accepted for presentation will be peer reviewed & published in the Conference Proceedings' CD-ROM/Memory stick to be issued to delegates.

Following the conference, the keynote speeches and peer refereed selected papers will be published in *The International Journal of Crashworthiness* which is SCI Expanded

Deadlines-Important dates

Abstract Submission	Apr. 13, 2018 2 nd round
Acceptance Notice	Apr. 20, 2018 2 nd round
Full Manuscript Submission	Jun. 25, 2018
Provisional Program Published	Jun. 10, 2018
Conference Registration	Jul. 20, 2018
Conference Dates	Jul. 25-27 2018

Venue

Jianguo Hotel , Xi'an, Shann'xi, China

Registration fee

Author:	2000 yuan/person
Attendee:	2000 yuan/person

Information Update

The conference information, including paper format, hotel address and reservation, registration will be updated in the website, please pay attention to the website.

CHINA
2018
Xi'an

Xi'an is one of the oldest cities in the world with a vivid and rich history and culture. It is not only the birthplace of the Chinese Nation, but also the birthplace of human civilization in Asia and the cultural center of prehistoric civilization.

Xi'an marked the start of the famous "Silk Road" that linked China with central Asia and Roman Empire. And it served as the first capital of a unified China and capital of 13 dynasties in history, In Xi 'an, there are many world-famous places of interest, such as Qinshihuang' s terracotta warriors, wild goose pagoda, ancient city wall and so on.

At the same time, due to the long history, Xi 'an district has formed a unique food culture. Many snacks are popular with people from all over the world.

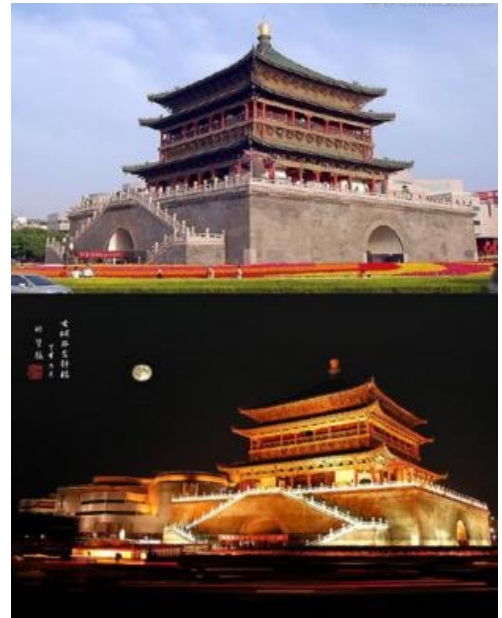

As such, Xi'an has a wealth of historical sites and relics to visit and see and is a great place where Chinese history and culture can be well understood.

Venue

Jianguo Hotel, Xi'an

2 Huzhu Road (Huzhu Lu) Xi'an JiaotongUniversity/Xingqing Park
Xi'an 710048 China

0.22km from **Metro Station:** **Chang Le Gong Yuan Station**

Recommending Hotel	Min Fee (RMB)	Address	Tel for Room Reservation	Distance to venue
Jianguo Hotel	420	2 Huzhu Road (Huzhu Lu) Xi'an JiaotongUniversity/Xingqing Park Xi'an 710048 China 0.22km from Metro Station : Chang Le Gong Yuan Station	res@hotelxianjianguo.com	0
Xi'an Empress Hotel	460	No.45 xingqing road, xincheng district, xi 'an.	86-029-8669-1618	0.6km
Lemon Hotel	350	240 Changle Road, Xi ' an Xijing Hospital/Kangfu Road Xi'an 710000 China 0.10km from Metro Station:Tong Hua Men Station	86-029-85795067	1.1 km
Empark Grand Hotel	450	No.19 Jiangong Road Other Area in East Xi'an Xi'an 710043 China	86-029-68608888	2.3km
